

Curriculum Statement

Our Mission Statement: 'Love one another'

Our Learning Values: 'Practice makes perfect'

P – pride

R – resilience

A – aspiration

C – creativity

T - teamwork

I – independence

C – curiosity

E – engagement

Curriculum Intentions

At Charlton House Independent School, it is our intent for the Geography curriculum to inspire our pupils with a curiosity and fascination about the world and its people that will remain with them for the rest of their lives. The teaching of this subject will equip our pupils with knowledge about diverse places, people, resources and natural and human environments together with a greater understanding of the Earth's key physical and human processes and to encourage the children to show their respect for their local, national and international environment. As our pupils progress through our school and increase their Geographical skills, their growing knowledge about the world will help them to deepen their understanding of the interaction between physical and human processes and of the formation and use of landscapes and environments. We want our children to gain confidence and enjoy practical experiences through local fieldwork studies and in our wider community in Stafford and Staffordshire which has a wealth of both geographical and historical features. As their skills further develop our intent is that all our pupils gain knowledge, understanding and can explain how the Earth's features.

Curriculum Implementation

A high quality of geography in our school is delivered through our Topics. The school and classroom environments encourage our pupils to engage, develop, innovate and express themselves through their own unique stage of development and learning. The teaching ensures that all our pupils gain knowledge and skills appropriate for their age and have high expectations to challenge all our pupils to be proud of their work. Teachers constantly assess the children knowledge to ensure a deep understanding of the skills and knowledge is being obtained by all.

Curriculum Impact

At Charlton House Independent School, all pupils use their skills gained through geography to understand the ever-changing world they live in and to apply their knowledge to other curriculum subjects and to have dynamic ideas for the future. This starts with a firm foundation in EYFS, and continues to grow throughout the school as children gain a more in-depth understanding of the world around them.
